SIMILAR LOSSES HINTED BY JURORS

New Indictments Against Councilmen and Officials Reported To Have Been Considered.

The Fulton grand jury, investigating charges of graft and corruption in the operation of the municipal government, Friday adopted a resolution calling on the mayor, general council, chief of construction and city attorpey to act in the courts to obtain from the Georgia Power Company \$14,600 it alleges is due the city for the delivery and laying of concrete bought by the power company from the city.

The grand jury charges that the city also has "lost" on other like deals and demands that the municipal officials act to recover any similar sums it may be able to discover.

In its resolution the grand jury charges that the power company purchased from the city at the rate of \$7 per cubic yard concrete for paving between its tracks on Moreland avenue between Cleburne and Ponce de Leou avenues and that the city without authority from council or payments from the power company rendered \$14,600 worth of service to the power company by delivery and laying of concrete, the cost of delivery and laying being fixed at \$3.60 per cubic yard.

Potatoes to be baked should be scrubbed with a stiff vegetable brush, so that the skins are edible—they make splendid roughage. To hoil, they can stand in cold water after washing. Most potato preparation climinates peeling if a little fore-thought be practiced. Ten minutes boiling usually loosens the skins so that a plunge in cold water allows for their removal. Then they may finish boiling, for plain, creamed or mashed potatoes, or sliced at this stage for German fried or a scalloped dish. Use whole or halved with a roast for browned potatoes.

Carrots, turnips, cabbage and beans may be cut as desired, crisped in cold water and then wrapped in cloth until needed. Beets should be scrubbed well and then can stand in cold water until time for cooking. When the oven is to be in use for over an hour, try baking beets and see how sweet is the result. Winter squash must be washed well before cutting with a heavy butcher knife, aided by the hammer. It is not harmed by standing some time if placed in a covered kettle, then can be steamed or baked, as preterred. Peas should be placed in the ice box in a closed container, if shelled beforehand. Green corn should never be husked in advance and the market which offers it so prepared is making a big mistake.

which offers it so prepared is making a big mistake.

Fresh vegetables in abundance are advised for everyone, but for the kitchenette cook, neither space nor economy allow for the seasoning vegetables so often desirable. It may be a new idea to some that such vegetables as onions, carrots and mushrooms, all so helpful for flavor, can be bought dried in convenient form for varied uses. An hour or two of soaking in cold water freshens them for cooking, and the liquor so used should also be included. The businesswoman who delights in light housekeeping often has neither space nor need for a supply of such vegetables on hand. The dried vegetables assure her of seasoning variety at very little expense, and the amount required is surprisingly small. These dried products keep indefinitely.

Here are just a few recipes for cooking vegetables picked at random from my new Modernistic Recipe-Menu book which I am sure will prove interesting to you:

band.

Mrs. Houston sought \$200,000 damages, charging the memory of her husband was blackened in the biographical sketch of Sam Houston by Don C. Seitz, published in Liberty magazine in 1928.

The widow objected to characterization of her husband as a heavy drinker and dangerous citizen and references to him as the son of an Indian mother. Sidney L. Samuels, attorney for the defendant, denied that the assertion that Temple Houston was born of an Indian mother carried with it any implication of illegitimes.

The historical record that Sam The historical record that Sam Houston entreated his Indian wife to accompany him to Texas, he declared, was proof that the famous Texas liberator regarded his marriage to her as a valid one. He also cited the fact that Houston refused to marry until two years after the death of his Indian wife.

FLY FUND RETENTION

State Entomologist Sends Telegrams to Georgia Congress Delegation.

Telegrams urging use of influence to retain in the United States agricultural department appropriation bill funds for a Mediterranean fruit fly survey in this state have been sent to the entire Georgia congressional delegation in Washington, it became known here Friday.

"Senaté has amended agricultural appropriation bill to appropriate \$6,900,000 for Mediterranean fruit fly eradication work. Included in this amount are funds for survey of Georgia to determine presence or absence of fly. Fly has wintered in Paris, France, for last 20 years and mean temperature for 50 years in Paris is lower than Atlanta. Fly prefers peaches to other hosts, so you can understand the dangerous position of Georgia. Greatly appreciate your very active support," read a telegram, sent out by M. S. Yoemans, state entomologist.

Renlies have not heen received by

mologist.

Replies have not been received by Mr. Yoemans, but a special dispatch from Washington stated that Congressman Ramspeck, for one, had stated "I will do all I can to persuade the conferees to keep the item in the bill." Mr. Yoemans said that while no natural infestation had ever been found in Georgia, it was considered ex-

survey such as funds new included in the agricultural bill would provide for," said Mr. Yoemans. "My motive in sending the telegrams was purely to call attention of the Georgia congressional body to that important item. We realize that it is equally important to keep the entire agricultural fund thatet, but Georgia will only be in a safe position when the United States department of griculture has announced that the fruit fly has been completely eradicated."

The agricultural appropriation bill in question is now in the hands of committees from both the house and senate for discussion and adjustment. The senate, as stated in Mr. Yoemans' telegrams, has set the eradication fund at \$6,900,000. The house has yet to pass on that portion of the measure.

The Arkansas senator said President Hoover's assertion in greetings to the Maine republicans, at Bangor, March 27, that the republican party's record of legislation and administration "justified the continuing confidence of the people," made one doubt whether "to smile or grieve."

Strong Indictment.

Asserting that the telegram was the "most disquieting thing that has come out of the White House," Caraway asked: "What can the country expect?—because if he is not aware of the utter collapse of the administration, both legislative and administrative, he is the only intelligent person that is not."

The farmers, the Arkansan said, were in "a bad way" if "one can be satisfied with the legislative achievements of this administration which has to its credit only the so-called farm relief and tariff bills, neither of which promises the slightest relief to oppressed agriculture."

"If the president," Caraway continued, "on the other hand is satisfied with the administrative accomplishments, which consist of a few bad appointments, including the farm board and the abortive arms limitation movement, and the utter collapse of law enforcement, indeed he is easily satisfied."

Collapse of Administration.

WASHINGTON. March 28.—(P)—
A triple onslaught upon President Hoover's record in the White House was made tonight by democratic congressional leaders, who charged "utter collapse of the administration," disorganization of the senate republican majority due to lack of leadership capacity" and a poor legislative lecord in congress.

Senator Caraway, democrat, Arlansas, and Representative Garner, of Teñas, the democratic leader, made their charges in statements, issued through the democratic leader, made their charges in statements, issued through the democratic leader, made their charges in statements, issued through the democratic leader, made their charges in statements, issued through the democratic leader, made their charges in statements, issued through the democratic leader, made their charges in statements, issued through the democratic leader, while Representative Byrns, of Tennessee, chairman of the democratic congressional committee, voiced his contentions in an address over the National Broadcasting Company's chain.

The Arkansas senator said President Hoover's assertion in greetings to form a republican point of view.

"At this time," the Tennesseean said, "it appears that the crowning achievement of the early period of the Hoover he Houser when the Hoover's has the troough tath the president with the torough tath the president with the senate lobby investigating committee to fit he processes by which the favored industries obtained the retest they wanted."

Senator Fess omitted, Byrns said, mention of President Hoover's selection of Claudius Huston's Name Omitted.

Senator Fess omitted, Byrns said, mention of President Hoover's selection of the republican national committee of the chairman's connection with Muscle Shoals activities.

Byrns said he thought it strange to list the London naval conference as an asset to the administration's record at this time, and predicted that the suggestion that this country was willing to join th

Bus Line Ruling Seen as Big Aid To Service Board

A recent federal court decision de-nying an interlocutory injunction against the Georgia Public Service against the Georgia Public Service Commission as relating to its regulation of bus traffic on Georgia highways may have great bearing on future rulings of the commission, it was said at the state capitol here Friday. The opinion, handed down in New Orleans by Federal Court Judges Nathan P. Bryan, Wayne G. Borah, and Samuel H. Sibley, held that the Southern Motorways, Inc., which sought the injunction, was a common carrier as prescribed by the Georgia law, and therefore subject to jurisdiction of the public service commission.

therefore subject to jurisdiction of the public service commission.

The bus company had charged discrimination and violation of the federal constitution in that it was private carriers, and that the Georgia commission had denied it the right to use the state highways at will.

Officials in the commission's office said the decision settled the following questions:

1. Can the state demand a certifi-cate of public convenience from car-riers of passengers? 2. Can it demand a fee for this cer-

tificate and require license fees on each vehicle involved? 3. Can it fix and limit bus sched-Can it revoke certificates there-

The opinion, written by Judge Sib-ley, judge of the circuit with head-

uarters in Atlanta, grants all those uestions, officials of the commission The Southern Motorways, Inc. stated in their petition filed with the court that they ran local buses from Atlanta to Macon, and contended that the commission discriminated against them in cuting down schedules and number of trips daily.

"We must admit that the burden of war is the nation's burden. It, therefore, should fall equally upon all men and upon all property. There should be no profit in war. Surely no one can argue successfully to the contrary. Let us, therefore, insist that our national defense program be so prepared that all citizens and all property shall bear the equal punishment of war, if war shall ever come again. Let us pay in materials as introduced by State Commander Gradagain. Let us pay in materials as well as in men. If the principle is correct and fair, and just, then it should be written into the law of the

Through the day a round of cere-monies and functions extended by the legion occupied the visiting national commander. He was received at the commander. He was received at the high offices of the city. At the Henry Grady High school he made the speech of presentation of the legion's gift of steel flag poles and colors. At Pershing Point he paused to lay a wreath on the memorial to the city's World War dead.

At the flag presentation ceremonies Commander Bodenhamer delivered an appeal for legislation on behalf of dis-abled veterans. "The new veterans' committee omnibus bill, which provides in one of its 24 sections for relief of \$4,000 disabled veterans, and which is now pending before congress, is urgent," he declared. "It is a splendid piece of constructive legislation and its passage should not be delayed by further debate."

There are two plans offered to you for obtaining subscriptions and thereby get credits and win in The Atlanta Constitution's \$25,000 prize campaign.

(1). The contract plan allows you to take subscriptions whereby the New subscriber agrees to take The Atlanta Constitution for 6 months or 12 months and to pay the carrier each week for the paper. These contracts can be taken for subscriptions in Atlanta and outside towns where The Constitution has carrier service.

(2). Candidates also have the privilege of taking cash subscriptions from both Old (present subscribers) and New subscribers and the subscriber pays in advance for the subscription.

You can use either of these two plans or both.

By accepting contracts for ONLY New subscriptions, and not accepting Old contract subscriptions, it does away with unfairness whereby agents or carriers of the newspaper could turn over to a candidate hundreds of Old subscribers' contracts which would be very unfair to candidates working for their subscriptions. The plan of accepting contracts on only New subscriptions and paid-inadvance on both old and new subscriptions, makes the subscriptions bona fide and fair for all.

How to Get 100,000-50,000 Extra Credits!

For every \$30 club or combination of New paid-in-advance subscriptions turned in by 9 P. M., April 19, a bonus of 100,000 extra credits will be given to candidates. Never has there been such an easy opportunity to get gold, enclosed cars and radios absolutely free for a little spare-time effort as there is now with this latest announcement in The Atlanta Constitution's \$25,000 prize campaign.

Atlanta's second suicide within 24 hours occurred about 4 o'clock Friday morning when James C. Curran, 56, of 990 Drewry street, put a bullet through his heart after telling members of his family that he was going to leave Atlanta "but I'm not going to run away."

Late Thursday afternoon Mrs. W. G. Scott, of 450 Bryan street, shot the spare-time effort as there is now with this latest announcement in The Atlanta Constitution's \$25,000 prize campaign.

40 Years' Service as Official of City Reviewed by Fellow Townsmen.

ATHENS, Ga., March 28 .- His 4 years of service as an official of the city of Athens was reviewed by fellow townsmen here Friday night at a goodwill dinner given in honor of Cantain J. W. Barnett, newly ap pointed chairman of the state high way board.

The dinner, an informal affair, was given under auspices of the Athens Chamber of Commerce, Rotary, Ki-wanis, and Lions Clubs. Tributes to wanis, and Lions Clubs. Tributes to Captain Barnett's efficiency, his conscientiousness in the discharge of his duties, his friendly and agreeable manner in dispatching the public's affairs, were made by Dr. S. V. Sanford, dean of the University of Georgia; Andrew C. Erwin, secretary of the Southern Mutual Insurance Company, former mayor and state legislator, and Mayor A. G. Dudley, manufacturer.

City Engineer for 40 Years.

For 40 years Captain Barnett has been city engineer of Athens, superintendent of its waterworks, in charge of street development and, since five years ago, supervisor of the sanitary department. All of Athens' paving development was constructed under his direction. The sewerage extensions made in the city were laid under his supervision. When the sanitary department was turned over to him a gathering of political powers in the state, and the place from where a partment was turned over to him a few years ago he modernized the captiment, enlarged the incinerating facilities, bought motor trucks to take the place of the slower, mule-drawn carts, and increased the efficiency of the department to such an extent that he doubled the service to the city, thereby believe the difference of the state, and the place from where ago he modernized the garden to such an extent that he doubled the service to the city, thereby believe the state is now in process of the state of the state is now in process of the state of the state is now in process of the state of the state is now in process of the state of the state is now in process of the state of the state is now in process of the state of the state is now in process of the state of the state is now in process of the state of the state is now in process of the state of the state is now in process of the state of the state is now in process of the state of the state is now in process of the state of the state is now in process of the state of the state is now in process of the state of the state of the state of the state of the milledgeville Bar Association for the dead of the milledgeville Bar Association for the design potent.

Speakers also pointed out that Captain Barnett, aside from his duties as city engineer, supervised the construction of Athens' waterworks system, valued at \$1,000,000 or more, yielding a net revenue to the city of \$50,000 annually, and has acted as superintendent of the waterworks system for many years. The city's water supply has at all times been excellent, has met the tests for purity at the state board of health consistently, and a few years ago during the terrible drought Athens' citizens did not lack a bountiful supply of water while many other cities went "dry." Captain Barnett's contributions to Athens and this section in the way of

Captain Barnett's contributions to Athens and this section in the way of highway development were cited and praised. As president of the Athens Chamber of Commerce, an office he held simultaneously with the presidency of the Kiwanis Club, he aided in the establishment of a curb market in Athens, which now offers a market for farm products from miles around, and stressed the need for a modern highway system for this section.

around, and stressed the need for a modern highway system for this section.

Captain Barnett is chairman of the board of deacons of the First Presbyterian church, and aided in preparation of plans for the Athens country club, one of the best equipped in the south for a city of the size of Athens. His work in connection with making the University of Georgia's \$300,000 football stadium a realty was given by Dr. Sanford, faculty chairman of athletics at the university and "father of the stadium." Captain Barnett gave his time, his interest and his skill in the development of the project and saw the gigantic undertaking through to a successful finish, Dr. Sanford said.

Ex-Mayor Erwin Speaks.

Former Mayor Erwin told of his association with Captain Barnett as an official, of how his knowledge of city affairs, in practically every department, was invaluable. Mayor Dudley also spoke along these lines, paying tribute to Captain Barnett's knowledge and efficiency, and his remarkable grasp of municipal problems.

Movement for New Organization Launched at Waycross Meeting.

WAYCROSS, Ga., March 28.—The growth of the poultry industry in Georgia has brought about a movement for the formation of a poultry co-operative organization, farm agents and agricultural leaders of approximately 15 south Georgia counties having discussed the matter in detail at a conference held here Friday, following an agricultural meeting Thursday in the interest of federal loans for storm and flood-stricken areas.

Georgia is shipping approximately a million and a half dollars' worth of poultry out of the state annually, and the industry is growing rapidly with the expansion of the plan of co-operative sales through the use of pick-up cars, state college of agriculture leaders pointed out. This places Georgia in the ranks of a commercial poultry state, which is a marked change over conditions that existed in past years when Georgia did not produce anything like enough chickens and eggs for her own consumption.

SCHOOL GIRLS AND VISITORS TO BE ENTERTAINED TODAY

Atlanta Hostesses Plan Informal Social Gaieties

Today's calendar is indicative of the lull in the social whirl, due to Lent and the spring season. And such a lovely spring, too, that it is no wonder Atlanta hostesses prefer to relax and indulge their annual inertia instead of racking their brains for new and unique forms of entertainment. Now is the time for planting, gardening, riding, golf, tramping in the open and day-dreaming.

Restitution Made,

E TOLD ME HOW THE LITTLE GIRL HAD COME IN, NG FOOD AND FRESH OIL FOR THE LAMP; SHE HAD TAKEN PITY ON HIM AND MADE HIM TELL HER HIS STORY. THEN LINK SUGGESTED THAT THEY TRUST THE DOG -

O GET A MESSAGE BACK TO OUR BOAT. THE GIRL AGREED TO HELP. SHE WROTE THE NOTE, PUT IT IN HER PURSE UPON THE DOG'S NECK AND TURNED HIM LOOSE. SHE WOULD GLADLY HAVE SET LINK FREE — BUT ALAS! THE CHAINS!

THEN I TOLD LINK HOW THE DOG RETURNED TO OUR BOAT - HOW WE FOUND THE NOTE IN THE PURSE, FASTENED TO THE DOG'S COLLAR, AND HOW WE FOLLOWED THE DOG INTO THE CAVERNS WHERE WE MET OUR PRESENT SAD CIRCUMSTANCE

By Robert Franc Schulkers Lewis Skidmore Lectures Sunday On French Impressionism of 1884

Lewis P. Skidmore, director of the High Museum of Art, will deliver an informal illustrated lecture on "French Impressionism of 1884," at 3:15 o'clock Sunday afternoon, March 30, at the High Museum of Art, 1262 Peachtree street. The lecture will be illustrated with lantern slides from the Metropolitan Museum, New York city.

Mr. Skidmore will embrace in his talk the story of the term impressionism, how and when it originated, and will give a resume of the paintings of France which directly preceded the impressionism on the art of today, relative to bright, pure color, will also be discussed. Mr. Skidmore's extensive study of the impressionism of this period, extending over a period of many years, will render this talk especially illuminating and helpful. "French Impressionism of 1884" was the subject of Mr. Skidmore's thesis

AND Here's why Rinso is doubly economical!

> Not only does Rinso get your clothes the whitest you ever saw. It saves you money every washday!

For Rinso is doubly economical. It's all that's ever needed on washday-no bar soaps, chips, powders. Granulated and compact, one cupful of Rinso gives more suds than two cupfuls of lightweight, puffed-up soaps.

And these rich suds lossen dirt. Clothes don't need a be boi. d and scrubbed threadbare. So you save money that way, too.

The makers of 38 leading washers recommend Rinso for safety and for whiter, brighter clothes. It's a great soap for dishes, too—the grease just vanishes. Get the BIG handy household package.

SIXTEENTH INSTALLMENT.

"I agree all the time," said the detective.

"You have something in your safe," Roscoe declared, "which may help me to break up the Zones."

"You're going to see it tonight," Page Sutton repeated.

"The next point is," said Regan, standing up, "that Commander Roscoe, who's been hiding, disguised, in New York for the reason that he daren't venture out on the street—you get me? That's how strong they are—is here now in your home. And if the goods he's come for aren't up to specification, he's playing tennis with live bombs."

"Part of the game, Regan," said Roscoe quietly. "You are in pretty deep yourself. If we're on a false scent we shall both have a thin time getting away. One thing is a bit obscure. Having realized that this was a danger area, Mr. Sutton, why have you kept guests in the house?"

"I'll tell you," Sutton replied. "I knew they were safe enough, and I thought their presence added to my safety. There are only two, anyway. Molly O'Hay, a niece of Deputy Commissioner Burke"—Roscoe exchanged a swift glance with Stopford—"she was at school in Paris with my daughter, June. And an old friend of my own, Dr. Cross, a member of your trade," turning in Stopford's direction. "They're safe enough. There's nothing to fear."

"But," said Roscoe, "the informer has disappeared, so that we can't check his information. And certain attempts have been made on your own life. Am I right?"

"You're dead right," Page Sutton agreed.

"It doesn't surprise me a bit." Stopford declared, speaking from the open window. "Roscoe can tell you of a similar case. Whenever a member of this gang tries to do a spot of brokerage on the side he's blotted out."

"That's not the point," Roscoe interrupted. "The point is the value of the information which he supplied is confirmed by the later attempts on this house. Do you agree, Regan?"

"I agree all the time," said the detective.

"Well! I should like to meet the man who could enter these grounds! There are six very useful Alsatians at large from dusk onward!"

The door opened, and Christopoulos, Page Sutton's butler, came in.

"Yes?" said Sutton. "What is it?"

"Mrs. Dean wishes to know, sir. if Mr. Regan is staying tonight."

"No," Ned Regan answered shortly:
"I must get back to town."

"But, my dear Regan!" Roscoe cried.—"a bargain is a bargain!"

"Sure," said the detective slowly, "you have reminded me. Of course. If I'm not putting you out, Sutton, I should like to stay."

"Hello!" cried Stopford, who had remained standing by the open window. "Hello! Helld!"
"What is it?" Page Sutton asked excitedly.
"Who's down there?" Stopford was straining, now, from the window. "Who are you, and what's your game?"

PORTS SECTION
THE ATLANTA CONSTITUTION

arcelled heroes and muscle bound villains have been putting on fights lately in Hollywood that looked fairly exciting to timid folks out in front of the screen.

But the big, strong painted men and the tough eggs gave a sour act compared to one staged by a company recruited for the talkies recently in Florida.

The company is composed of a mob of assorted hound dogs and an airedale, plus a bob cat. The fight they put on for a Grantland Rice "Sportlight" picture (Pathe) makes all the latter day gangster fillums look and sound tame as a children's game of tag at recess.

A preview of the film was given yesterday by the Fox theater people; the subject is booked there next week. By no

THE MURDER.

The picture is a natural smooth-working tale of a bob cat hunt in Florida, but it carries more punch than a dozen gunman

An old negro drives up to a hunting camp in a muledrawn buggy and tells the white folks a bob cat has just killed one of his guineas. He leads them and their dogs to the scene of the murder.

The poultry yard is in an uproar and the surviving guineas

"Heah 'em hollerin' 'Bob Cat, Bob Cat,' " declared the old negro by way of confirming his story.

So away go the hound dogs, baying on the hot trail and the white men gallop after, following on horseback.

THE FIGHT SCENE.

The cat finally is treed. Close-ups here are achieved by a telescopic lens. Just as the hunters are about to shoot, the

cat jumps and alights running. Away go the dogs in full cry.

They corner the cat in a mud bank by a pool of swamp water. The cat backs up against the bank. The dogs attack. The cat cuffs them down with lightning lefts and rights. The dogs advance and retire with ears bleeding and jaws dripping.

Soon the faint hearted hounds sit at respectful distance and awl, while the cat sits snarling.

ENTER THE HERO.

The airedale has been distanced by the pack of hounds, but he comes up running. He crashes through the waiting circle of hounds, breaks through the flashing paws of the cat and grabs the marauder by the throat. The others charge in to help him and grab hold where they may. The cat dies miserably at the edge

All the elements of a big melodrama are there and the gang fight is put on with unmistakable realism and twice as much noise as Hollywood can muster. As to its musical qualities, the squalling of the hounds is no worse than the current variety of Hollywood blues

If you do not get up and yell when that airedale charges in, you are a hot house plant and deserve exactly what you get in the feature releases of the day.

SAYS YOU!

"Professor Albert Einstein has presented a new paper . . connecting gravitation and electricity. Einstein's first announcement a year ago did not attempt to say what the relation is. Now the solutions are described as follows:

"These field equations can be rigorously solved in two cases. The first case is that of a spherically symmetrical field in space, for example, the external field of an electrically charged sphere of fixed mass. The other case is that of the static field of any number of uncharged mass particles at rest with respect to one

What gets me is why he did not say so in the first place. Fancy holding out on us for a year with the explanation. No wonder the stock market cracked under the strain!

The left arm is close to your body, not out in front of you, and the club, being ahead of your body—seemingly ahead, though in truth it is in unison—has all the room required to swing through and take the ball away. But now note what would happen if you tried to swing straight through the ball, straight through being pre-sumably an effort to make the clubhead follow a line that would go through the ball and directly toward the hole ahead. (P)—Shaun Goilin, the much fancied Irish horse, carried the colors of W. H. Midwood to victory today in the ninety-first running of the Grand National after a neck-and-neck duel over the last lap of the four and one-half-mile course with Mellerays Belle. John H. Whitney's American-owned Sir Lindsay was third.

Shaun Goilin was quoted at 100 to 8 against in the betting while the odds on Mellerays Belle were 20 to 1 against on 100 to 7 against on Sir Lindsay.

American entries, put up a game bat-tle under 146 pounds, but finished a length back of the two leaders. Whit-ney's horse and Mellerays Belle took the last jump together with Shaun Goilin a length behind. The latter, however, came up with a rush to win in a drive.

Thence they go bounding over a series of hurdles to Becher's brook which consists of a solid rail with stiff hedge forming one of the most difficult jumps of the course. Dobbs Crew Wins From Toledo at Anniston by 13-9 Score.

By Ralph McGill.

By Ralph McGill.

Home at last and glad of it, the Atlanta Crackers came in Friday night with a 500 average in their road exhibition games and only a few remaining games ahead before the open-er with the Chattanooga Lookouts on April 15.

The first of the polishing games is to be played this afternoon at Spiller field with the Columbus club of the Southeastern league.

Bill White, veteran baseball man and coach at the University of Georgia during the spring, is manager at Columbus. He has a good club which will offer opposition of real merit. Nick Dumovich and Joe Kiefer will be the pitchers used by Dobbs. The game will begin at 3 o'clock.

Those who journey out to Spiller field to see the Crackers in action against the Columbus club will witness a squad which is pretty much road-weary. It was necessary to leave a full squad of men in the training camp at Douglas last Monday. This forced Dobbs to play his regulars, who were not yet in shape, through four strenuous games with Class AA teams on make-shift diamonds which are not good for muscles.

PITCHERS OVERWORKED.

od for muscles.
PITCHERS OVERWORKED. Six pitchers went along and it was necessary to use two each day. Which meant that the pitchers got but one day's rest. They pitched in weather which was near the freezing point, with chilling winds sweeping the diamond.

with chilling winds sweeping the diamond.

There were four charley horses in the car when the squad left Douglas. Mickey O'Brien, the trainer, has really worked wonders during the training weeks. He has kept the men, many of them veterans, in uniform all the month. Not until Friday was there a man absent when the squad went out to do its daily chores.

Milt Stock, third baseman, went out with his leg healed on Thursday. He took things too fast and hurt the leg again. He was left at the hotel in Anniston Friday during the game with an ice pack on the leg. He will be ready next week.

in Anniston Friday during the game with an ice pack on the leg. He will be ready next week.

All this splashing of printed woe is meant to emphasize the fact that the Crackers, while they are even with any other outfit in the league so far as training is concerned, are still in need of some warm weather and work.

Johnny Dobbs hasn't knocked around the baseball circuit for 30 years not to know what he is doing. It is hardly likely that he will win a flag this year, but his team will not be one that will fold up when the going sets rough. ing gets rough.

Isaacs Romps Home in Darkness for Victory in Opener.

By Herb Clark.

Playing baseball for three innings, some strange new game for three more, and blind man's buff for the conclud-ing trio. Georgia Tech and Clemson opened their conference diamond sea-son on Tech's new Rose Bowl field Friday afternoon. The final score stood at 10-9 in favor of the Jackets. It took two hours and 20 minutes to get the business done with. The game started at 4 o'clock. And from the seventh inning on Old Lady Night had the field in her grasp and was not thinking about letting go. Had the game been called in the seventh, however, the Jackets would have been on the short end of a 7-4 count.

Tech's winning tally, which came with one man out in the ninth, was a partial result of the absence of light. With Ray Isaacs standing on third waiting anxiously for a let-down which

With Ray Isaacs standing on third waiting anxiously for a let-down which would allow him to cross the plate and go home to supper, Catcher Foggy Woodruff lost the ball on its way to the batter. It was his third passed ball of the afternoon, but looked better than either of the others. Isaacs took advantage of his opportunity, and the game was over.

The Tigers opened the scoring with a single tally in the first inning, cored four in the fifth, two in the sixth, and tavered off with a ninthinning pair.

The Jackets tied the count at 1-all in the third, took the lead with three runs in the fourth, and rallied in the eighth and ninth to complete their activity. Both spurts netted three tal-

BRAVES, GIANTS **MAKE CHANGES**

'Jawn" Has New Second Sacker: Boston Takes on Four Players.

By George Kirksey.

United News Staff Correspondent. The New York Giants have a new second baseman and the Boston Braves have four new players in their lineup for the opening game between those clubs at the Polo Grounds April 15.

Eddie Marshall, recalled from the Bridgeport Eastern league club where he batted .316 last season, will attempt to plug the weak gap in the Giants' infield. He was discovered with the Beaumont Texas league club two years ago.

MOUND STAFF.

No other changes have been made in the Giants' lineup outside of the pitching staff, where Hub Pruett, a southpaw, who won 15 and lost 7 for the Newark International league club the Newark International league club.

George Fisher from the Buffalo International league club and Johnny Mostil, former White Sox player, will be the reserve outfielders, along with Andy Reese, who will be an all-around substitute. Pat Crawford and Eddie Farrell will be the reserve infielders.

The regular berth.

The Braves' new comers are Johnny Neun at first base, Billy Rhiel at second, Randy Moore at third, and Wally Berger in the outfield.

Neun, formerly with Detroit, who batted 330 for the Baltimore International league club last season, has temporarily won the first base job from George Sisler because of his brilliant fielding.

Rhiel, recently bought from Brooklyn, has crowded Freddy Maguire off second base because of his harder hitting. Randy Moore, who came to the Braves from Dallas an outfielder, has been converted into a third baseman. He led the Texas league in batting last year with an average of 360, and in addition set a new record for hits

Berger, who batted 335 for the Los Angeles P. C. L. club last season, has rounded out the Braves' outfield. Big, fast and with a great throwing arm, Berger promises to accomplish much in his first year in the majors.

Bill McKechnie, Braves' new manager, expects improved pitching from Ed Brandt, Johnny Cooney, Harry Seibold and Bob Smith. The other regulars are Bruce Cunningham and Ben Cantwell. Two rookies, Bob Brown and Al Smith, will stick around.

The Georgia Barrier. Marching through Georgia has taken on a number of new compli cations since Sherman's day. If you don't think so, ask a number of golf professionals in the south. The Augusta competition at 72 holes has a high class field for Monday's start and it will be interesting to see whether or not another pro can break through the Jones' defense of Georgia soil.

The Best All-Around College Athlete.

Some recent polite mention of the all-around athletic abilities of Booth, of Yale, and Wood, of Harvard, has stirred up quite a debate.

One nomination is Tom Churchill, of Oklahoma University. On what grounds? A good baseball pitcher; has played end, guard, tackle and halfback on Oklahoma's football team; all-conference forward on basketball team; won the University of Kansas relay championship in decathlon, a gruelling 10-event per-formance; won a place on the American Olympic team; good

heavyweight boxer. Still in college and still going.

Another nomination rings in "Catfish" Smith, of Georgia, star at football, basketball, baseball and boxing. One of the best ends from any section, able forward, leading baseball slugger.

A flock of old-timers have been nominated, but this will be about

enough for the present—although Sig Spaeth's vote for George Owen, of Harvard, must be chronicled, for this same Owen was a blazing flame in at least four major sports, which includes tennis ability but little known when he was picking on Yale in other pastimes.

There is a report that an even larger number of college ball players will take up professional baseball this summer. There is also a rumor that a number of fighters may also decide to take up fighting as a profession at some early date.

A Great Pitcher.

The recent illness of Ed Walsh, Comiskey's greatest pitcher, recalls a tribute which Ty Cobb paid the White Sox star a few days ago. "I know," remarked Cobb, "just how good Cy Young, Walter Johnson, Matty and Alexander were. But if I had to pick one man for a five-year stretch I believe it would be Ed Walsh. There was one season in addition set a new record for hits

1908 as I recall it, when he worked in 66 games, won about 45 and with 245. He has won the position of cleanup hitter and is considered who can win 30 games. In a three-game series I have seen Walsh pitch the first game, go in as relief pitcher for the second and then pitch And probably win or save two out of the three.

"Walsh had marvelous control of a low ball, fast ball and spitter. He would start a spitter just above your knees and when you swung the ball would break into the dirt back of the plate. The next might be a fast one around the same spot that wouldn't break. He had fine control and for five years he was about hard a man to hit or beat as baseball has ever known.

'His extra value came from the fact that he could work three games a week and then save one or two more in a pinch. He had an arm of steel and the heart of a lion and I can say for myself that I nexer started any cheering when he stepped out against the Tigers. He will have to be entered as one of the great pitchers of all time.

The Greatest Record.

"As great as Walsh, Walter Johnson and Matty were," Cobbontinued, "the greatest record still belongs to Cy Young. That old boy won something like 511 ball games; more than most go are who can win 25 games. Yet he averaged 25 wins each season for more than 20 years. A record is a record. There are some figures they can't wipe off the slate. And no one now liv-ing will ever see them even approached, not within a hundred

Beat Baylor, 6-4

CHATTANOOGA. March 28.—In spite of Captain Robert (Lefty) Bryan's fine exhibition the Baylor tennis from fell before Boys' High, of Atlanta, this afternoon. The match was close and hard fought, the Georgia boys emerging victorious only after winning out in the sixth and final match, to make the score 6-4.

Young Bryan, a ranking southern tennis player, was in a class by himself, but a good performance was put up by Wooten, Boys' High, boy champion of Florida two years ago. Coach Smith, of the Red and Grey, was handicapped somewhat by the fact that two of his regulars, Anderson and Allen, were away for Easter vacation. Anderson, with "Lefty" Bryan, ranks second in the state junior doubles.

NEW YORK, March 28.—(P)—
The dynamite in Jimmy McLarnin's right hand failed to explode tonight and the clouting Celt from Vancouver, B. C., was forced to stage a rapid-fire finish to gain a close decision over the hard-hitting negro welterweight, Young Jack Thompson, of Oakland, Cal., in the 10-round feature of Madison Square Garden's fistic frolic.

Banged and battered, frequently outpunched and out-boxed, McLarnin needed all his remarkable courage, generalship and 'kill to save himself from defeat at the hands of a slim, wiry negro puncher. A rally in the last three rounds, when he outscored Thompson in a series of spectacular exchanges, enabled McLarnin to gain the unanimous verdict of Referee Jimmy Crowley and the two judges.

A near capacity crowd of 18,000 was in an uproar throughout most of the fight.

in an uproar throughout most of the fight. Although McLarnin was the popular favorite, Thompson's spectacular but also erratic work won the approval of the crowd and there was proval of the crowd and there was considerable booing when the Irish lad's hand was lifted in victory by Bellerin' Joe Humphries at the finish of the last furious raily. cliques. All of which means quite a lot and augers well for the future. Douglas proved an excellent place to train, all the players agreeing that it was much superior to other camps visited. It is quite likely that the team will go back there next spring if it is invited.

Meanwhile the Crackers look good. They are smart, fast enough and hit well. They do not look like any super-champions or anything of the sort. But they most emphatically do look like a well-balanced baseball team. McLarnin was given five rounds, Thompson three, with two rated even. The Irishman was given the first, third, fourth, eight and ninth, Thomp-son the second, fifth and seventh, with the sixth and tenth registered even. Women Stars Play

SAN FRANCISCO. March 28 .- (A) The Examiner today said that a merger of the Standard Oil Company of New Jersey and the Standard Oil

to the Standard Oil Company of California virtually had been agreed upon.

The newspaper said that although officials of the California organization declined to comment, it had learned from sources close to both companies that plans and terms for the consolidation virtually had been decided.

Such a consolidation would form the largest petroleum organization in the United States. The New Jersey company is rated as a \$1,000,000,000 corporation and that of California at about \$500,000,000.

The Examiner said consummation of the merger was awaiting the action of the federal courts on the proposed consolidation of the Standard Oil Company of New York and the Vacuum pany of New York and the Vacuum

that such a merger was forbidden by the dissolution decree of 1911 by which the original Standard Oil Com-pa : found to be a trust in violation

separate companies.

"Since the receipt of this intelligence," he added, "no further action looking to such a combination has been taken. There is no foundation for any stories to the contrary."

Mr. Davis' statement discloses for the first time than the first time.

Mr. Davis' statement discloses for the first time that a merger of these two units of the original Standard Oil Company had been definitely branded illegal by the department of justice, and throws an interesting sidelight upon the recent agreement to merge two other units of the original Stand-ard, the Standard Oil Company of New York and the Vacuum Oil Com-

to advise them as to whether the com-bination was permissible, stating that it would have to be tested in the courts. The department has subse-quently started the necessary action in federal court at St. Louis.

Business Tone Improves in Week

NEW YORK, March 28 .- (A)-Dun's review tomorrow will say: The week which has practically closed the first quarter of the year has been marked by a better business tone in certain respects, yet without any broad stimulation of activity. Response to the change in seasons lacks a full development and has been retarded lately by a blizzard in the central west, and low temperatures sarried as unsatisfactory or uncertain. Notably among these reports that substantial deficits in January and February have been followed by a further large deficit in March. Gold Dust, on the other hand, recovered sharply in reflection of the improved sentiment regarding foed stocks, following the report of estimated earnings of more than \$1 for the first quarter for General Foods.

JACKSON BROS. BOESEL & CO.

NEW YORK, March 28.—Reduction of \$21,000,000 in brokers' loans during the week, contrasted with an increase of \$121,000,000 the week before, indicates the heavy turnover of funds incident to the fax date was partially responsible for swelling the loan total around the middle of the month.

NEW YORK, March 28.—(P)—
Cotton was less active today with near months relatively easy under scattered selling which was attributed to realizing or transferring to small long accounts to later deliveries. Part of the near month selling was eccompanied by buying of new crop positions, possibly to undo appreads or straddles, and at the close May was only 56 4 Am See Effect 11 10 Am Silp & Com 12 10 Contine Mot Del Name 12 1

ing the middle of the day, sending the price off to 15.61, while July declined to 15.66 or 10 to 17 points net lower. Later deliveries continued relatively steady, holding a few points above yesterday's closing quotations, however, and the general market steadied up later in the day when there seemed to be a renewal of covering in the near positions. July advanced to 15.85 or 9 points net higher, while new October sold up to 15.26 or 15 points above yesterday's closing quotations. The close was several points off from the best under realizing or liquidation.

Selling Dries Up.

The selling appeared to have dried up, and with the session too well along to be in danger of attracting much profit taking before the close, the bull crowd swamped the trading much profit taking before the close, the bull crowd swamped the trading floor with buying orders.

The day's news was not of a character to influence trading. The weekly business and trade reviews again reported gradual and irregular gains, pointing out that the seasonal upturn to be expected at this time had been retarded by the blizzard in the middle west. The surprising decrease in brokers loans, covering a period in which the index of 90 leading stocks gained nearly 3 points, and in which the index of 90 leading stocks gained nearly 3 points, and in which the midex of 90 leading stocks gained nearly 3 points, and in which the midex of 90 leading stocks gained nearly 3 points, and in which the index of 90 leading stocks gained nearly 3 points, and in which trading was in good volume, appeared to dominate speculative sentiment.

Among the more bullish theories offered was that investment trusts and other institutions had been withdrawing funds from the call loan market at Liverpool, and bullish weather and crop reports. Corn to 75 cents higher.

Mr. Campbell's statement followed claims made yesterday by Cyrus 8. Eaton, chief of the opposition to the merger, that proponents had only 510.000 of the 790,000 shares they need to approve the deal, while opponents hold 412,000 shares, or more than enough to block it.

Campbell's statement said:

THREE COUNTRIES

BY STANLEY W. PRENOSIL,
Associated Press Financial Editor.
NEW YORK, March 28.—69.
Prices on the New York Curb Market moved irregularly higher today as chief speculative interest shifted back and forth between the public utilities and specialties. The market opened higher, consolidated its gains in the face of rather heavy profit-taking, and then spurted upward again in the last hour, with final quotations generally around the high levels of the day. The unexpected decrease of \$21 600,000 in federal reserve brokers loans was the principal bullish influence.

Electric Bond & Share continued its role of the leader of the public utility group by crossing 100 to a new high for the year, and a net gain of nearly 4 points. Tampa Electric soared 13 points to 90 and then dropped back to 85 but the turnover was small. Electric Power & Light warrants ran up 6 1-2 points to a new top at 68 1-2 and retained all but a point of the gain. Cities Service topped its previous high by a small fraction. American Gas & Electric, was one of the few soft spots.

Oils held fairly steady, Indian Territory Illuminating moving into newhigh ground in response to reports of an expansion of its natural gas pipe line facilities. Gulf, Humble and Vacuum closed fractionally lower. Eastern Gas Fuel touched a new high

HAITIAN COMMISSION ASKS GRADUAL LIBERTY

United States policy in the island republic.

With immediate withdrawal of the marines found inadvisable, the commission recommended gradual withdrawal in accordance with arrangements to be made between the two governments and with the advice of the commandant of the Haitian garde.

A minister would be assigned to Haiti to succeed Major General John H. Russell, American high commission at the expiration of his tour of duty. Russell's term is limited by the pleasure of the president, or by the treaty authorizing marine occupation which lapses in 1936.

"Less Intervention."

"Brothers," will be the first melodrama given Atlantans by the players and it will serve as a vehicle to introduce them in an entirely different type of play to those they have so far given us.

There are still a few good seats unsold for this afternoon and tonight and it would be the part of wisdom to get to the box office as quickly as possible, get seats for today and at the same time make your reservations for next week. For the demand is heavy.

Also, under the recommendations, the minister would be charged with negotiating agreements "providing for less intervention in Haitian domestic affairs."

The commission recommended that the detail of naval and marine officers for all Haitian services be made for a minimum of four years. Further, it recommended that "an effort be made to secure Americans who will agree to continue employment in these services, so that upon the expiration of the treaty a force of American doctors, engineers, and police officers will be available for continued assistance to the Haitian government, should it then desire it."

Regarding the economic situation, the commission recommended the Haitian government be urged to appropriate for maintenance of existing propriate for maintenance of existing and that only roads most urgently needed to develop settled regions under cultivation be undertaken until the present economic depression has passed.

No Objection.

Furthermore, the report urged that the American government interpose no objection to a moderate reduction of the customs duties, internal revenue

coffee if the treasury condition warrants.

Employment by the Haitian government of one American adviser in each administrative department, with the American government maintaining them as an act of grace, was also recommended.

Immediate construction of a legation building at Port Au Prince was included in the recommendations.

As a subsequent step, it was recommended that "in retaining offices now in the Haitian service, or selecting new Americans for employment therein, the utmost care be taken that only those free from strong racial antipathies should be preferred."

'Bachelor Father' Given Twice Daily

WASHINGTON, March 2S.—(P)—
President Hoover today, adopted as his administrative policy the gradual withdrawal of the United States marines from Haiti and the substitution of diplomatic relations for the present military commission.

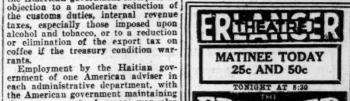

The recommendations of the Forbes commission to this effect, which further suggested recognition of a provisional government, were accepted by the chief executive two months after the appointment of the group to study United States policy in the island republic.

With two performances today, a matinee at 2:30 and the usual night performance at 8:30, the Erlanger Theater Players will close a highly successful week's presentation of "The Bachelor Father."
New records have been set this week, the box office total surpassing even that of last week, which surprised the most optimistic member of the company with the size of the crowds attending. And, judging by the chief executive two months after the advance sale and the interest already voiced by theater-goers, the play for next week, "Brothers," is apt to company with the size of the company with

VICTIM OF ACCIDENT FLEES FROM DRIVER

DETROIT, Mich., March 28.—(A) Gerald Bowdin is all out of breath, the result of trying to catch a man he ran over with his automobile. The man stepped from the curb in front of Bowdin's car and was knocked down. He got to his feet and ran up an alley as Bowdin stopped. Gerald overtook him after a spirited dash and attempted to persuade him to go to a hospital.

Dissenting, the victim took to his heels again and outdistanced Bowdin in a chase of several blocks.

the incident admitted that it was a new wrinkle in the "hit-run" classifi-cation of automobile accidents, but told Bowdin not to worry about "leav-ing the scene of an accident" (a se-rious offense in this city) for the man probably was wanted by the law anyway.

Disappearing Mortgage

FIRST MORTGAGE

A FEW reasons why "The disappearing mortgage plan" should be placed upon a home.

Monthly payments are less than rent. Easier for the man with the monthly income. Safer because the entire mortgage does not fail due at one time. It places the complete payment of your home on a basis of certainty. No more refinancing coat. Jefferson Mortgage Company

only with a knife slaying so mighty a beast? Yet presently his old eyes went wider and he commenced to have his doubts and misgivings for lowly there came into his sunken eyes the light

swinging through the trees in company with a band of huge spes. The old man's eyes blinked as he recalled this sight of twenty years before and a great fear came into them, the superstitious fear of one who believes in ghosts and demons.

And the time came once more when the witch-doctor no longer doubted the outcome of the duel. He was even more frightened, for now he knew that the jungle-god would slay Numa. What would then he his own fate at the hands of the victor? He saw the lion weaken from loss of blood, its mighty limbs stagger and tremble as the beast sank to rise no more. He saw this forest demon put its foot upon the still quivering carcass.

By Edgar Rice Burroughs

Then it raised its face to the moon and bayed out a hideous cry that frese the ebbing blood in the veins of the witch-doctor. Terror almost overcame his attention to the man and something akin to pity touched his savage heart at sight of this fearstricken, suffering creature. He stooped to staunch the wounds of the old man before he answered: "I am Tarzan-Tarzan of the Apes."
